

**FORMAT FOR THE PRESENTATION OF THE RESULT OF DELIBERATE
RELEASE INTO THE ENVIRONMENT OF GENETICALLY
MODIFIED HIGHER PLANTS IN ACCORDANCE WITH ARTICLE 10 OF
DIRECTIVE 2001/18/EC**

(COMMISSION DECISION 2003/701/EC)

General information

1.1. European notification number:

B/SK/09/02

1.2. Member State of notification:

Slovakia

1.3. Date of consent and consent number:

22 April 2009, 17781/2009-2.3.-11-ZZP15

2. Report status

2.1. Please indicate whether, according to Article 3 of the present Decision, the current report is:

The final report

3. *Characteristics of the release*

3.1. Scientific name of the recipient organism:

Zea mays

3.2. Transformation event(s) (acronym(s)) or vectors used (if transformation event identity not available):

MON89034x1507xMON88017x59122

3.3. Unique identifier, if available:

MON-89Ø34-3 x DAS-Ø15Ø7-1 x MON-88Ø17-3 x DAS-59122-7

3.4. Please provide the following information as well as the field(s) layout.

experiment with GMO maize during the period of the permit has not been implemented

Geographical location(s) (administrative region and, where appropriate, grid reference)	Size of the release site(s) (m ²)	Identity and approximate number of GM higher plants per event actually released (number of seeds/plants per m ²)	Duration of the release(s) (from ... (day/month/year) until...(d/m/y))

4. Any kind of product that the notifier intends to notify at a later stage

4.1. Does the notifier intend to notify the released transformation event(s) as product(s) for placing on the market under Community legislation(s) at a later stage?

No

5. Type(s) of deliberate release(s)

5.1. Deliberate release(s) for research purposes

Not applicable

5.2. Deliberate release(s) for development purposes

experiment with GMO maize during the period of the permit has not been implemented

5.3. Official testing

Not applicable

5.4. Herbicide authorisation

Not applicable

5.5. Deliberate release(s) for demonstration purposes

Not applicable

5.6. Seeds multiplication

Not applicable

5.7. Deliberate release(s) for biosafety/risk assessment research

Not applicable

5.8. Other(s) types) of deliberate release(s):

Not applicable

6. Method(s), result(s) of the release, management and monitoring measure(s) in respect of any risk to human health or the environment

6.1. Risk management measure(s)

Centrum výskumu rastlinnej výroby

6.1.1. Before the sowing/planting:

Not applicable

6.1.2. During the sowing/planting activities:

Not applicable

6.1.3. During the period of release:

Not applicable

6.1.4. At the end of the release:

experiment with GMO maize during the period of the permit has not been implemented

6.1.5. Post-harvest measures

experiment with GMO maize during the period of the permit has not been implemented

6.1.6. Other(s) measure(s): (describe):

Not applicable.

6.1.7. Emergency plan(s)

Indicate:

(a) if the release proceeded as planned:

The release proceeded as planned.

(b) if measures according to the emergency plans) (Article 6(2)(a)(vi) and Annex III.B of Directive 2001/18/EC) had to be taken:

These measures were not necessary.

6.2. Post-release monitoring measures

Please indicate whether

experiment with GMO maize during the period of the permit has not been implemented

According to the aforementioned cases, please indicate which monitoring measure(s) will be/are/were taken and where (on the release site/near the site (e.g. on fields edges)). Please be aware that all post-release monitoring measures taken during the whole post-release period shall be indicated here.

Specify:

— **Monitoring measures within site**

experiment with GMO maize during the period of the permit has not been implemented

Frequency of visits (average): No

— **Observation of resistant relatives** No

— **Observation of resistant insects** Not applicable

— **Control of volunteers (specify intervals and duration)** No

— **Monitoring of gene flow (specify)** Not applicable

— **Appropriate chemical treatment(s) and/or soil treatment(s)** Not necessary

- **Others (specify)** No
- **Monitoring measures of adjacent areas**
Duration: No
Frequency of visits (average): No
Area monitored: No
- **Observation of resistant relatives** No
- **Observation of resistant insects** Not applicable
- **Control of volunteers and/or monitoring of feral populations (specify intervals and duration)**
 No
- **Monitoring of gene flow (specify)** Not applicable
- **Appropriate chemical treatment(s) and/or soil treatment(s)** Not necessary
- **Others (specify)** No

6.3. Plan for observation(s)/method(s) involved

experiment with GMO maize during the period of the permit has not been implemented

6.4. Observed effect(s)

6.4.1. Explanatory note

All results of the deliberate release(s) in respect of any risk for human health or the environment shall be stated, without prejudice to whether the results indicate that any risk is increased, reduced or remains unchanged.

No unexpected effects have been recorded.

6.4.2. Expected effect(s)

experiment with GMO maize during the period of the permit has not been implemented

6.4.3. Unexpected effects

No unexpected effects have been recorded.

6.4.4. Other information

No other information.

7. Conclusion

experiment with GMO maize during the period of the permit has not been implemented

DATE: January 5, 2012
